STANBRIGII EMBRION RELIMATVM,

SEU

Vocabularium metricum olim à JOHANNE STANBRIGIO digestum,

Nunc verò locupletatum, defæcatum, legitimo nec non rotundo plerumque carmine exultans, & in majorem Pueritiæ balbutientis usum undequaque accommodatum, extrema opera & industria JOH. BRINSLÆI.

LONDON,
Printed by *T. W.* for *Tho. Knight*, and are to be sold by *Andrew Crooke*, at the green *Dragon* in *St. Pauls* Church-yard, 1649.

Lectori Candido.

ENtibi hic Stanbrigium, qui dudum podagrâ laboravit, jam demum erecto tripudiantem pede. Quod si aliquoties adhuc vacillare videatur, mirandum non est; à tam gravi etenim morbo non nisi pedetentim datur invalescere. Ut ut est, at dignus saltem est cui venia detur, medicus, qui dum vitam Stanbrigio meditatur amittit suam; Ita quidem ut aliis usui esse posset. Ut rei præsentem publicæ consuleret, de se semper parùm solicitus fuit. Versibus profectò (at apertè dicam) impar fuit illa provectior & ingravescens ætas; veruntamen cum pueris pueriliter lusit, atque non illu bentor; adeò nihil unquam recusavit oneris indefessus senex, quo utilitati publicæ consultum iret. Quàm olei semper liber alis (ne dicam prodigus) fuerat, testantur satis volumina haud pauca, inter quæ consenuit, hæc quidem musis non invrata, illa Ecclesiæ gratissima. Quùm neutiquam in senectute parcus fuisset, luculbrationes hæ puriles inter quas extinctus est, modò diuturniorem paulo hujus lucis usuram illi Deus mdulcisset, testatum reliquissent. Verum quorsum istac (inquis) in re tam levi inanis curiositas? Parum est si pedibus laboret Stanbrigius, qui cæteroquin cordatus est & integer. Nihil est si carmina in puerulorum gratiam concinnata, rotundè modò fluant, subinde claudicent, Esto: ego planè tecum sentio. Quin reputes paulisper velim, quòd um imitatrix admodum sit puerilis indoles facilè cum claudicante Stanbrigio una claudicabunt; qui cum erecto pariter incedent pede. Quin & novimus universi sigilla, quæ ceris molliusculis nullo negotio imprimuntur, si quando obdurverint, quam agrè, quam nunquam excidunt: & latere non potest quantam docenti pariter & discenti molestiam creabunt anticipata falsisque vinuæi obstructa juvenum ingenia priùs quam veritati hospitium præbeant. Nec tamen levecenseri debet si vocum quantitates puerorum animis unâ cum lacte nutricis, ipsis nè vel somniantibus quidem guttatim instillentur: adeoque recens illa mentis testula suavi illo thymiamate perfundatur cujus odorem in omnem usque vitam sit redditura. Habe ergo tib Stanbrigum (audacter dicam) verè relimatum, ubi si vocum quantitates spectes, en tibi Smetium; si Declinationes, Conjugationes, genera singulis vocibus apposita, ecce in manibus Grammaticam, Dictionarium. Vale.

An advertiſement to the Reader.

FOR the full underſtanding of the Letters and Figures over the heads of every word: Note that the Declenſions, Genders, and Nouns if they be Subſtantives, are noted with Figures and Letters; where the Figures ſhew the Declenſion, the Letters the Gender: If they be Adjectives of three terminations, *bo* ſheweth them to be declined like *Bonus*. If of three Articles, *fel* ſheweth them to be declined like *Felix.tr.* like *Triſtis*. Where *pl.* is added, it noteth that word to have onely or uſually the plurall number. Verbs are marked with Figures, and the Letter *C* doth ſhew their Conjugations.

THE END.

SCiat paucis ingenuus & ingenuosus lector quid in quarta hac editione accessit novi operarum mendæ; quæ irrepserant, emaculantur non paucæ; bis cocta earundem vocularum crambe parcius apponitur; vocabula extra stationes suas palantia, sub propriis jam vexillis militant; versus denique podagrici persanantur illi, qui remedium non egrè admittebant; deploratis autem & contumacibus malagmata admovere operæ pretium non fuit; satis esse duximus, si ad viam libri indicaretur, ubi etiamnum laboram. Nec putetur tamen ista editio ve quaque morbifuga; adhuc enim sunt quæ fælicioremmanent Æsculapium.
